Miami, FL

SUMMARY

Full Stack Web Developer with 10 years of experience dedicated to building and optimizing user-focused websites and applications. Technically proficient and analytical problem solver with a huge passion for everything that involves web development.

EDUCATION

B.S. INFORMATION TECHNOLOGY ENGINEER

Universidad de Ciencias Informaticas

09/2008 - 07/2013 Havana, Cuba

EXPERIENCE

Full Stack Developer

Ledotechnologies Inc.

06/2022 - 04/2023 Miami, FL

- Served as a Full Stack Developer, playing a key role in the development and implementation of a Direct Store Delivery and Proof of Delivery Software.
- Constructed REST APIs using .Net Core and C# programming language.
- Developed responsive, user-friendly interfaces leveraging PrimeNG and Bootstrap.
- Implemented the repository pattern, forming the data access layer using SQL Server and Entity Framework.
- Created high-performance functionalities by constructing stored procedures, views, and queries, optimizing database efficiency and responsiveness

Full Stack Web Developer

COPEXTEL S.A

2018 - 2022 Matanzas, Cuba

- Designed and developed an Inventory Management System for efficient product control within the company.
- This system implemented various functionalities, including inventory tracking, product entry and exit management, invoicing, reporting, and more.
- Utilized the ASP.NET MVC framework to build the application, ensuring its scalability and performance.
- This experience allowed me to gain valuable expertise in both frontend and backend development, as well as a deep understanding of database management (using SQL Server) and user interface design principles.

SCADA Developer

COPEXTEL S.A

09/2013 - 12/2017 Matanzas, Cuba

- Designed, developed, and implemented SCADA (Supervisory control and data acquisition) systems based on analyzed requirements and understanding of industry technical standards.
- Developed and deployed new SCADA tools/interfaces to reduce operational cost, improve facility runtime, and further environmental stewardship and safety.
- Support all SCADA system integrations, views, scripts, and overall architecture.

SKILLS

HTML CSS Bootstrap

Javascript Typescript Angular

C# .Net ASP.Net MVC

ASP.Net Razor Pages ASP.Net API

Blazor Entity Framework LINQ

SQL SQL Server GIT Github

Azure Docker
